

RHS School Supplies

School supply lists are evolving significantly with the requirement that high school students have an electronic device such as a laptop computer for school. Any school supplies needed beyond what is indicated below, will be communicated by the classroom teacher.

School Supplies

- Electronic devices (For more information: [Laptop Subsidy Program](#))
- Loose leaf (200 sheets) and binders. Dividers between subjects would be helpful, however, most notes are able to be taken via the electronic device.
- A few pens, pencils, erasers, and highlighters
- Scientific Calculator
- Clean sneakers and clothing for Health and Physical Education class

Please note that some specialty classes require additional supplies or fees. Classroom teachers will notify students during the first few days of class, if any additional materials or fees are needed.
